

PMEA 2021 Virtual All-State Model Suggested Schedule

The 2021 PMEA Virtual All-State Model suggested Schedule is presented below and based on numerous factors as well as observation and research into other virtual performance models.

Factors taken into consideration include:

- Not knowing what each individual school district teaching format will be at this time, the rehearsals were scheduled to not entirely “disrupt” the educational schedule of the student. The Combinations of Group A and Group B (listed below) would alternate rotation schedules (morning vs. afternoon on a daily basis) while some of the evening “activities” would have both Group A and Group B present.
- All students will need to initially “check-in” on a Monday or Tuesday to ensure their connections work. Additionally, time is given before each rehearsal to check in and make sure the connection works before the rehearsal starts.
- Students will need to provide a “personal” gmail account address, possibly a back-up email and the sponsoring Director will also need to provide an email address. Student school email generated accounts will NOT work because of firewalls.

WEEK CONSIDERATION:

*** April 12 - April 17 (same week as scheduled 2021 PMEA All-State)
