

PMEA MEDICATION ADMINISTRATION RECORD

*A separate form is required for each medication, including asthma inhalers and epinephrine auto-injectors which are carried by the student for EACH event in which the student will be participating. *In the case of maintenance medications - the PMEA Medication Administration Record may be copied if the student participates in multiple PMEA events provided the medication information is complete (or a prescription is attached), the chart has not been completed by a festival nurse **AND** the **medication expiration date has not passed.** If students require medication for a chronic condition, the school district's form on file in the school or nurses' office may be used. **(It is suggested the PMEA Medication Administration Record is copied BEFORE a student participates in their first festival.)**
 (Please PRINT/TYPE all information below, except signatures; prescription may also be attached)

Initials Name

***ALL medication must be administered by the fest/festival nurse, regardless of the student's age, Section 504 or Transition Plan.** *All medication MUST be in the original packaging (i.e. bottle including prescription label with the student name, RX number, dosage, licensed prescriber and date issue). Additionally, a completed Medical Administration Form must be provided for EACH medication including "over the counter medications" such as Ibuprofen, Antacids, etc. (must be in the original container/box as when purchased) and signed by the licensed prescriber. Each medication and accompanying Medication Administration Form must be placed in a Ziploc baggie with the student's full name marked in Sharpie.
